EXPERIENCE

Zachys Fine Wine International

Graphic Designer, August 2018 - Present

Zachys is one of the world's premiere auction houses and retailers. On a daily basis I create digital and physical assets including, but not limited to, email images, social media images, digital invitations, store signage, auction catalogs and countless ad hoc requests. Auction catalogs display millions of dollars worth of vintage wine and spirits, often exceed 150 pages, and must be created within a day or two.
